

At **TUNSTALL** we specialize in the manufacturing of interior thermostatic elements for steam traps using state-of-the-art technology. For maximum reliability and long term performance our Tunstall Steam Trap Capsules® are made of a 10 plate TIG welded stainless steel bellows and feature orifice diameters up to 5/16", custom tooling, a two-year warranty, and pressure ratings from vacuum to 125 psig. Each capsule is individually tested and calibrated before shipment. Now you can economically increase the performance of your old steam traps by replacing the interiors with new Tunstall technology. Made to retrofit almost all thermostatic steam traps, Tunstall Steam Trap Capsules® are by far the best choice for repairing or upgrading existing traps.

TUNSTALL CORPORATION

**STAINLESS STEEL
STEAM TRAP
CAPSULES**

Having been in service since 1985, with virtually failure-free performance, Tunstall Capsules® can offer your system years of trouble-free service.

For a **FREE** sample and complete catalog, call toll-free 1-800-423-5578. Please have the make, model and size of your steam trap. Your Free sample will be shipped the very same day.
